FUTURE MEETINGS/EVENTS:
  ● None scheduled at this time.

Members attending
CAC members attending included Assistant Chairperson Elaine Bluml, Dr. Brent Blevins, Hilary Graves, Stephen Hill, Janice Phelan and Dorothy Walk. Dr. Brent Blevins, deputy superintendent of operations, and Kyle Gorrell, director of facilities, provided information at each site throughout the tour.

Bus Tour
The bus tour was held from 8:30 to 10:30 a.m. with the bus leaving from and returning to the Stansberry Leadership Center. Although each R-7 school is being positively impacted by the bond issue, the two-hour tour included just five schools and the construction site for the new Summit Technology Academy / Missouri Innovation Campus due to time constraints. Stops at existing schools included Bernard Campbell Middle School, Greenwood Elementary, Richardson Elementary, Prairie View Elementary and Pleasant Lea Elementary.

The April 2015 bond issue includes facility improvements at each R-7 school as well as construction of a new Summit Technology Academy / Missouri Innovation Campus. The Summit Tech / MIC facility is also funded through a unique cost-saving partnership involving the R-7 School District and the University of Central Missouri. It will be located near Ward and Tudor Roads. For more information about the no-tax-increase bond, which was approved by close to 80 percent of voters, visit the district’s website at http://www.lsr7.org/district/no-tax-increase-bond-issue-2015/.
